ABOUT ME

Professional in the world of web development. Fullstack programmer with extensive knowledge in the use of modern technologies, both frontend and backend. Passionate about learning and implementing clean, scalable, extensible and testable code. Looking for new goals that help my professional preparation.

EXPERIENCE

Junior Developer

April 2022 - December 2022

- I worked laying out designs developed in Figma for several management and presentation web applications.
- I developed mainly with Angular and Express js
